14 January 1957

25X1A

BRIEFING ON THE INSTALLATION AT [REDACTED]

Emcee of the Briefing: James Q. Reber

1. Factual statement of the installation at [REDACTED] based on photo interpretation, 25X1A  
Mr. Arthur C. Lundahl, Chief, HTA, CIA
2. Summary of views as to the identification of the installation based on inter-agency conference on 4 January 1957, [REDACTED] OSI/CIA 25X1A
3. Summary of additional investigations to date.  
Col. William L. Walker, AFOIN  
Major Caten - AFOIN
4. Program of action, Mr. James Q. Reber, Chairman, ARC

It is proposed that another briefing be held for the IAC one month hence to report on the following:

- a. Results from a request now being levied on all potentially useful collectors for information which might bear upon identification and meaning of the [REDACTED] installation. 25X1A
- b. Request of the substantive research components of the community for intensive cooperative and independent examination as to the possible identification and meaning of the [REDACTED] installation.
- c. Based on the foregoing, systematic requirements for possible collection by AQUATONE which would further identify or reveal meaning of [REDACTED] installation or other relevant installations. 25X1A
